

Final Requirements - Machine Problem 3

Instruction: Using do while loop, create a program based on the given output below.

-15	-12	-9	-6	-3	0	3	6	9	12
Positive numbers				: 3	6	9	12		
Negative numbers				: -15	-12	-9	-6	-3	
Even numbers				: -12	-6	0	6	12	
Odd numbers				: -15	-9	-3	3	9	
Sum of positive numbers				: 30					
Sum of negative numbers				: -45					
Sum of even numbers				: 0					
Sum of odd numbers				: -15					
Sum of all numbers				: -15					
Count of positive odd numbers				: 2					
Count of negative odd numbers				: 3					
Count of positive even numbers				: 2					
Count of negative even numbers				: 2					
Count of all numbers				: 10					

Requirement:

1. Flowchart
2. C program
3. C++ program
